M I Š L J E N J E

Temeljem dostavljenog popisa predmetnih osnovnih sredstava - uzoraka, izložbenih artikala i ostataka robe na skladištu Bratina pregledao sam ista dana 05. lipnja 2012. Predmetni artikli se većim dijelom nalaze u zatvorenom i suhom prostoru kojim se koristio stečajni dužnik. Prilikom pregleda snimljene su fotografije koje se nalaze u prilogu.

Inventurna komisija po nalogu stečajnog upravitelja načinila je popis robe i opreme temeljem kojeg je izrađena procjena vrijednosti. Za dio robe na skladištu je neosporno utvrđeno da je oštećena, odnosno da je istekao rok trajanja (opasne tvari – ljepila, primeri, lakovi i bajcevi). Također, određeni broj artikala je zatečen u količinama koja se ne može smatrati *tehnologičnima* (*podne obloge* u količinama manjim od 10 m², *završni profili* u količinama manjim od 20 m¹), odnosno nekurentnima. U tim manjim količinama nalazi se i roba koja je nabavljena prije više od 5 godina.

Imajući na umu prethodno navedeno, kao i relativno malu potražnju za odgovarajućim artiklima, procijenjena je ukupna vrijednost predmetnih artikala (od rednog broja 1. do rednog broja 435.) na iznos 2.928.136,08 kn + PDV odnosno 390.418,13 € + PDV, uz tečaj 1,00 € = 7,50 Kn.

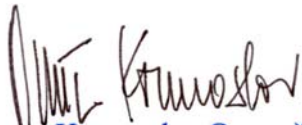

Pojedinačne vrijednosti pojedinih artikala dane su u prethodnom dijelu ovog elaborata.

Također, u prethodnom dijelu elaborata naveden je popis i robe za otpis:

- male, netehnologične količine (parketi <10m², profili <20 m, za zbrinjavanje), od rednog broja 1. do rednog broja 987.,
- oštećena roba ili roba kojoj je istekao rok trajanja (ljepila, primeri, lakovi i bajcevi, potrebno zbrinjavanje) od rednog broja 1. do 1039. u ovom popisu su i opasne tvari trošak zbrinjavanja kojih ovisi o ukupnoj bruto masi opasne tvari (vaganje prilikom utovara, procijenjena cijena zbrinjavanja cca 8,00 Kn/kg + PDV).
